UNIVERSITY
OF
JOHANNESBURG

The University of Johannesburg — **Department of Emergency Medical Care**, which falls under the Faculty of Health Sciences, trains their students not only in the medical requirements of treatment for patients of Motor Vehicle Accidents, but also they also equip them with the knowledge and practical experience of the actual Extrication of Trapped Victims.

This training covers all methods of extrication including Manual, Pneumatic and Hydraulic Rescue.

As the supplier of AMKUS Hydraulic Rescue Tools and

Paratech Pneumatic and Manual Rescue Systems to the University, we wish to acknowledge the excellent work done by the lecturers in not only preparing their students in the classroom, but also in the applied training that forms an integral part of these future Rescuer's knowledge.

With groups regularly undergoing Vehicle Extrication Training, UJ realized the importance of regular servicing and maintenance on their Hydraulic Rescue Systems.

Therefore as the official AMKUS Agents and Servicing Agents of

MOTOR VEHICLE RESCUE MODULE

AMKUS Inc. USA, we have been pleased to provide these services on an annual basis, keeping their equipment in tip top condition to ensure that their students get the maximum benefit of the professional training offered.

To all the Training Institutions delivering this much needed function of Training our Rescuers, we salute you and thank you for the commitment.

SPECIAL OFFER — AMKUS SERVICING

Regular servicing and maintenance has become a critical part of the survival of Fire and Emergency Rescue Teams.

As capital expenditure is reduced and the age of your equipment increases, it is essential to have your AMKUS Hydraulic Rescue System evaluated,

serviced and repaired by the Factory Approved Servicing Centre at Railtraction Engineering (Pty) Ltd.

As the Factory Approved service Centre we offer you peace of mind by using only OEM parts for servicing and repair.

Using the manufacturers blueprint for testing and evaluation as our own,

ensures that you get value for money and not just a good paint job.

Book your AMKUS Hydraulic Rescue System Service before 15 November 2009 and receive a free Seat Belt Cutter for your Rescue vehicle on completion of your maintenance.
